

The Brotherhood of the Solar Disc

Replica of the Solar Disc
(Temple of the Sun; Cusco, Peru)

The **Brotherhood of the Solar Disc**, an Andean esoteric organization, was founded in September 1998 by Andrea Mikana-Pinkham, Director of Sacred Sites Journeys; author Mark Amaru Pinkham, Spiritual Director of The Seven Rays of Healing School, Jorge Luis Delgado and other spiritual teachers from both North and South America. The **Opening Ceremony** took place at sunrise at the ancient **Fertility Temple**, near Lake Titicaca, situated on a ley line that runs directly into the MamaCocha (Mother Lake), and some say thus to the Solar Disc itself.

This spiritual organization is dedicated to the worldwide activation and sharing of the energies of **Unconditional Love** symbolized by the Golden Solar Disc that was brought thousands of years ago to the Andes from Lemuria by the sages Aramu Muru and his partner Arama Mara. An important sacred object, it became an **Incan power tool** and was used by shamen/priest kings to activate and access higher states of consciousness and open the heart center to the energies of Unconditional Love.

Spanish historians recorded that the Golden Solar Disc was hanging in the Coricancha, the Inca Temple of the Sun in Cusco when they arrived. The Inca priests and priestesses immediately hid it and from there the story is one of which legends are made. One such story says that the Incas took it deep into the jungle, past Machu Picchu, and hid it from the Conquistadors; that it was never found by the Spanish. To this day, expeditions have been mounted to search for **Paititi**, the lost city of the Incas where it is supposed to reside. None have found the sacred object. Other legends say that it was taken to **Lake Titicaca** and there it resides to this day, on an etheric dimension, sending out its rays of Unconditional Love to assist in the upliftment of humanity during this time of the

Pachacuti - the Andean legend of "the turning of the world" - to a new state of elevated consciousness.

Still another legend says that when struck in a particular way and while chanting certain sacred sounds, that the Disc could be used to transport the priest kings between dimensions. It is said that Aramu Muru, known in traditional Peruvian history as Manco Capac, the first Inca, used the Disc to open the interdimensional portal at **Aramu Muru's Doorway**, near the shores of Lake Titicaca, stepped through, and was never seen or heard from again on the third dimension.

Andrea, Mark Amaru and other spiritual seekers, have received communications that the Disc is indeed emanating its powerful energies both from the depths of Lake Titicaca, as well as through Aramu Muru's Doorway. Spirit directed them to found the Brotherhood in order to assist with the connection to the transformative energies of the Disc, to offer **initiation** into the society to others, to work together

for the upliftment of human consciousness to the Christ Consciousness of Unconditional Love - to create peace on earth and goodwill toward all.

The loving energies of the **Golden Solar Disc** continue to call many serious seekers to Peru. During the tours organized by Sacred Sites Journeys Andrea and Mark and other members of the Brotherhood invite you, their spiritual brothers and sisters, to receive initiation into this spiritual organization, to further open your heart and to ceremonially commit to share love with all those in your life...each in your own unique and special way.
